A a meeting of the camp on February 8 last, the witness said be heard Thomas O'Connor state that he read in Dr. Cro nin's camp the minority report of the committee to try the executive body of the order. The names of the members of the executive body were not men-tioned and the witness said he never

of the executive body were not mentioned and the witness said he never knew who composed the Triangle. Then it was voted to appoint a committee to go up to Dr. Cronin's camp and investage the matter of the minority report which Dr. Cronin had read.

Patrick Nolan, Financial Secretary of Camp 20, produced his record book and from it testified as to the numbers borne by Coughlin, Cooney, O'Sullivan, Beggs and Burke, all of whom, except Cooney, are now on tital. The witness further testified that he was present at a meeting of the camp on the night of May 3, the day preceding Dr. Cronin's death; that Beggs presided; that there was a call for the report of the secret committee appointed on February 8, and that Beggs replied that the committee was to report him alone.

The next witness was Cant. Thomas F. O'Conner, the man who created the excitement in Camp 20 on the night of February 8, by saying that he had heard read in Dr. Cronin's camp the report of the committee that tried the triangle. Captain C'Conner and that Andrew Fog was the first man to speak that night.

Captain C'Conner said that Andrew Fog was the first man to speak that night. Fog arose in his place in the camp and addressed the Senior Guardian, and stated that he arose under a terrible strain; thatafter the disclosures of LeCaron in London the organization, as an organization, was no more; that there were four British spies in the organization and that it should be reorganized, and every one that was in the organization who had the slightest taint or suspicion attached to him should be expelled.

When he got through I arose to my feet and I stated that I was not at all surprised at hearing the gentlemen talk as he had done: that I knew by positive information that the organization was run by a parcel of rogues known as our executive body; that they had squander ed our funds even to the extent of \$100,000, and not above that, but they sent our best men across to England to have them put behind the bars, and now I state positively that LeCaron was an agent of our executive body and received

agent of our executive body and received pay from them.

At that moment I was interrupted by two or three brothers with a demand to tell where I got the information. I did not like the first brother who spoke to me and I said, "You demand nothing." Then, there were two or three other brothers that demanded to know where I got my information and there was a general uproar at the time. So, I turned around to the senior guardian. I said to him: "If the senior guardian demands of me where I got my information I will tell him. He did not say anything. Then there was some more uproar. Then there was some more uproar. I ish Bible, with a view to stimulating an turned a second time and a third time and said if the senior gardian would demand of me where I got my information I would tell him. Then I stated I had heard a terrible report of the entre trial committee at Buffels and that I had sorship. Pittsburgh to Purnish Pekin, China, With also seen a written report, three hundred pages of close written, long hand the trial and that I was positive o my statement. At that instant Danie Coughlin, a member of the camp, arose to his feet and said: "Mr. Guardian, to his seet and sau: "Air. Quardian," is move you that a secret committee of three be appointed to find out the source of Capt. O'Connor's information." Those were his words then there was some one else on his feet and the senior guardian rapped the camp to order, as it was such a transitional line. Such thread, and he are all the senior guardian are produced in the senior guardian and he are such thread.

February 8 that Dr. Cronin read the relation of the trial of the Triangle, nor did he say in what camp it was read. He said that after he was subpensed to appear before the coroner's jury, he met Beggs and asked him if he should distributed in the trial of the tria close the secrets of the organization. Beggs to'd him to go ahead, as they were already public property. The witness GENERAL TOM FOWELL

The bloodhounds last sent to the ground have been unable to strike the trail. Superintendent Fisher and Detective Agee, of the Southern Express Company, telegraphed from Oneonta tonight that they had about decided to give up the search, and would call off their detectives to-morrow.

The twenty-live special men who went from this city yesterday are still searching for Burrows, and the Sheriff of Bount county is with them with a large posse, but the opinion that the outlaws have made good their escape is gaining ground. If the Southern Express Company detectives leave to-morrow the search will probably be absurdand by train robber, has folded his tent and mains he most covets as the guest of the to have realized some of the benefits which will undoubtedly attach to him from the visit of the Kaiser, to enable him to make a deal with the Czar which

It is evident, therefore, that though the two Emperors will obtain from the Sultan concessions of great benefit to their respective governments, the wily Mussulman will secure from each assurances of his freedom from molestation that will enable him to devote more time to the negotiation of loans and less to the cares of the State.
